# Coils of Cash

Coils of Cash is a 7-Reel video slot with 2304 payways.

There are 6 vertical reels and 1 horizontal reel (Power Coil). Winning combinations are removed. New symbols cascade into view to re-fill the empty positions to potentially form new wins. The process is repeated if new wins are continually being created. Only the highest winning combination per symbol is paid.

The Wild symbol substitutes for all symbols except Scatter and is only present on the horizontal reel.

The Power Coil is the horizontal reel above reels 2 – 5. Each Power Coil symbol position can have a multiplier activated; increasing by one for each symbol cascade on the corresponding vertical reel beneath, up to a maximum of x5 per reel. Multipliers reset before each spin, except when Free Spins are triggered. Only wins with symbols present on the Power Coil are affected by multipliers, which can multiply together for a total maximum multiplier of x625.

3, 4, 5, or 6 Scatter symbols award an initial 10, 15, 20, or 25 Free Spins respectively. The Power Coil multipliers carry over and only reset once the feature is complete. An additional 2 Free Spins are awarded per Scatter. Scatter symbols are only present on the vertical reels.

# Casino Standard Rules and Settings

## WIN CALCULATION AND BETS:

- 1) Maximum wins are inclusive of the origin bet and based on the default bets for games
- 2) Underlined and bold values are default settings
- 3) Default settings can be changed by the operator
- 4) If the default settings/bets are altered, the maximum wins will be altered as well

## CURRENCY:

- 1) All currency values relate to a currency multiplier of 1 which is accurate for EUR, USD, and GBP.
- 2) Other currencies, another multiplier might be used. For example: SEK has currency multiplier 10. All values related to currency should thus be multiplied by 10 for SEK. I.e. 10€ = \$10 = £10 = SEK100.
- 3) All currency is marked with an asterisk (\*) next to the caption in all tables.
